

INTERNATIONAL INTERNSHIPS

MSc Foundation Clinical Intership

QUEENS DENTAL SCIENCES CENTER

About the Course

Clinical internships are an integral part of all our MSc programmes the first year of which is a foundation training year that leads to a certificate in the relevant speciality. In addition, this year also provides the clinical skills and core knowledge expected by the General Dental Council for the Overseas Registration Examination. It teaches the ability to apply knowledge to clinical practice and is designed to develop practical clinical skills.

Module Outline
